

BMW 56 CAN

SKU# NTV-KIT109

The BMW 56 CAN is a video interface module for select 2004-2009 BMW vehicles. It has a dedicated rear view camera and RGBs input in addition to three Audio and Video inputs and an A/V switcher with an output for external monitors. Audio integration into the factory system requires either the MOST AUX BMW or the factory aux audio input. The most common use of the BMW 56 CAN is to add a rear view, front view or FLIR night vision camera, an aftermarket navigation system, DVD player, video iPod or game station to the vehicle's factory color LCD screen. Video in motion for the aftermarket accessories is supported.

BMW-09

SKU# NTV-KIT174

The BMW 09 is a plug-and-play video interface module for select 2009 and newer BMW vehicles. It has a dedicated rear view camera and RGBs input in addition to three Audio and Video inputs and an A/V switcher with an output for external monitors. Audio integration into the factory system requires either the MOST AUX BMW or the factory aux audio input. The most common use of the BMW 09 is to add a rear view, front view or FLIR night vision camera, an aftermarket navigation system, DVD player, video iPod or game station to the vehicle's factory color LCD screen. Video in motion for

the aftermarket accessories is supported.

BMW-12

SKU# NTV-KIT396

The BMW-12 is a video interface module for select 2012.5-2013 BMW vehicles. It has a dedicated rear view camera and RGBs input in addition to three Audio and Video inputs and an A/V switcher with an output for external monitors. Audio integration into the factory system requires the factory aux audio input. The most common use of the BMW-12 is to add a rear view, front view or FLIR night vision camera, an aftermarket navigation system, DVD player, video iPod or game station to the vehicle's factory color LCD screen. Video in motion for the aftermarket accessories is supported.

BMWV+

SKU# NTV-KIT024

The BMWV+ is a plug-and-play video interface module for select 1997-2008 BMW vehicles with two composite video inputs. Audio integration into the factory system requires either the factory aux audio input or an FM modulator. The most common use of the BMWV+ is to add a rear view, front view or FLIR night vision camera, an aftermarket navigation system, DVD player, video iPod or game station to the vehicle's factory color LCD screen. Video in motion for the aftermarket accessories is supported.

RGB7+

SKU# NTV-KIT027

The RGB7+ is a video interface module for 2002-2008 7 Series BMW vehicles with two composite video inputs. Audio integration into the factory system requires either the factory aux audio input, AUD7/AUD7+ tuner modification (2002-2005 only), MOST AUX BMW (2006-2008) or an FM modulator. The most common use of the RGB7+ is to add a rear view, front view or FLIR night vision camera, an aftermarket navigation system, DVD player, video iPod or game station to the vehicle's factory color LCD screen. Video in motion for the aftermarket accessories is supported.

MOST-AUX-BMW

SKU# NTV-KIT152

The MOST-AUX-BMW is a M.O.S.T. fiber optic audio integration module that allows audio to be introduced digitally into the factory stereo system. Coupled with a video interface module, the MOST-AUX provides a true A/V input solution.

AUD7/AUD7+

SKU# NTV-MOD004 (AUD1) & NTV-MOD5 (AUD7+)

The AUD7 is a single stereo audio integration modification to the factory AM/FM/WB tuner in 2002-2005 BMW 7 series vehicles. The tuner is located in the driver's side rear C pillar and must be sent in to NAV-TV for modification. The audio integration is audiophile quality, providing a true 20 HZ to 20 kHZ response. For two stereo audio inputs the AUD7+ is also available.

MUST BE SENT TO NAV-TV FOR MODIFICATION

BMW-VIM

SKU# NTV-KIT086

The BMW-VIM is a plug-and-play video in motion module for select BMW vehicles that play a DVD movie on the front LCD screen while in park. With the device installed it allows DVD playback even at highway speeds.

BMW-F02

SKU# NTV-KIT220

The BMW-F02 is a video in motion interface module for 2009-2012 7 series and 2011-2012 5 and 6 series BMW vehicles that play a DVD movie on the front LCD screen while in park. With the device installed it allows DVD playback even at highway speeds. In addition, the BMW-F02 allows navigation destination entry and owner's manual viewing without stopping.

TOOKI-BMW

SKU# NTV-KIT275

The TOOKI-BMW is a Bluetooth adapter for select BMW vehicles utilizing M.O.S.T. fiber optic technology. It allows you to make and receive calls through the factory radio in order to be in compliance with Bluetooth laws.

BMW-OEM-LIGHT-CAM

SKU# NTV-KIT222

Factory-fit rear view camera for select 3, 5, X3 & X5 series BMW vehicles. Replaces one of the license plate illumination lights and includes a high-quality Sony CCD camera with .1 lux and 170 degree field of view. Requires no modification to the vehicle.

BMW-HANDLE-CAM

2000-2006 BMW X5

BMWV+

SKU# NTV-KIT024

The BMWV+ is a plug-and-play video interface module for select 1997-2010 BMW vehicles with two composite video inputs. Audio integration into the factory system requires either the factory aux audio input or an FM modulator. The most common use of the BMWV+ is to add a rear view, front view or FLIR night vision camera, an aftermarket navigation system, DVD player, video iPod or game station to the vehicle's factory color LCD screen. Video in motion for the aftermarket accessories is supported.
