

## BMW 56 CAN

SKU# NTV-KIT109

The BMW 56 CAN is a video interface module for select 2004-2009 BMW vehicles. It has a dedicated rear view camera and RGBs input in addition to three Audio and Video inputs and an A/V switcher with an output for external monitors. Audio integration into the factory system requires either the MOST AUX BMW or the factory aux audio input. The most common use of the BMW 56 CAN is to add a rear view, front view or FLIR night vision camera, an aftermarket navigation system, DVD player, video iPod or game station to the vehicle's factory color LCD screen. Video in motion for the aftermarket accessories is supported.
